

A decade of Lighthouse Program

For 10 years, the Lighthouse Program has gone beyond conventional skilling—building agency, confidence and self-awareness so young people can make informed choices about their education, careers, vocational training and entrepreneurial journeys.

Through a Public-Private Partnership model, we bring together government, donors, employers, skilling partners and communities to help young people realise their aspirations and achieve their full potential.

What we've built together
To date

2.8L+ young people impacted
3000 Slum and low income communities
16 cities
6 States

We are now on a mission to empower one million young people to build brighter and sustainable future.

As we step into the next decade, we are taking a significant step forward through our **first project listing on the BSE Social Stock Exchange**.

What is the Social Stock Exchange?

A SEBI-regulated platform on BSE where vetted non-profits raise funds through **Zero Coupon, Zero Principal** instruments. A subscription works like a donation — no coupon, no principal repaid — but it is raised on an exchange, ring-fenced to one project, and **independently audited**.

OUR JOURNEY SO FAR

Due diligence
