Internal Risk Factors

As a non-profit organization, a reduction or discontinuation in the donations or grants we receive may have an adverse impact on the operations of our Company.

We are a non-profit organization registered under Section 25 of the Companies Act, 1956 (validly existing under Section 8 of the Companies Act, 2013). Accordingly, the operations of our Company are highly dependent on the receipt of donations and grants. The donations and grants received by our Company for the Financial Years ended March 31, 2023, 2022 and 2021 were ₹ 11.94 crores , ₹ 8.72 crores and ₹ 6.62 crores, respectively. In the event that donations and grants we receive reduce or are discontinued including on account of such donations and grants being focused on projects of other companies, it may have an impact on the business, operations and financial condition of our Company.

Changes in the financial position of our donors could result in a reduction or discontinuation of donations and grants received by our Company.

Our income is dependent on donations and grants being made to our Company. By their nature donations and grants are discretionary in nature and in the event of a deterioration in the financial position of our donors, the donations and grants we receive may reduce or may not continue at all. As a consequence, our Company's financial position and operations may be adversely impacted.

Changes in applicable law governing corporate social responsibility policies could have an adverse impact on our operations.

In terms of the Companies Act, 2013, companies which meet specific criteria are required to spend a portion of its profits towards activities which relate to their corporate social responsibility policies. Donations and grants made to our Company typically are made by companies as part of such policies. In the event of any change which reduces the amount required by companies to be spent on activities which relate to corporate social responsibility, the donations made to our Company may reduce, which in turn could have an adverse impact on our Company's operations.

We have entered into memoranda of understanding with certain State Governments including to conduct our programmes in government colleges. In the event that any of the state governments do not fulfill their obligations under the arrangements with them or terminate such arrangements, it may lead to a delay in implementation of our programmes or we may not be able to complete our programmes at all.

We have entered into memoranda of understanding with certain State Governments including Karnataka, Tamil Nadu, Andhra Pradesh, Kerala and Nagaland including to conduct our programmes in government colleges. In the event any such State Government does not fulfil its obligations under such arrangements or terminate such arrangements including on account of any change in the government of such states, we may face a delay in implementation of our programmes or we may not be able to implement our programmes at all. Accordingly, we may also have to focus our programmes in other states where we have existing arrangements with the State Governments or seek to tie up with other State Governments, in turn requiring us to expend further capital and resources.

Failure to retain and attract professionals could have an impact on our operations.

Under the programmes of our Company, we engage professionals who work with us and assist us with training, a significant portion of whom work with us on a pro bono basis or for nominal remuneration. This could lead to some delays in hiring and execution. We have kept additional time to complete the programme and we should be able to manage.

We are exposed to various operational risks including the risk of fraud and other misconduct by employees or outsiders.

Like any other non-profit organisations we are also exposed to various operational risks which include the risk of fraud or misconduct by our employees or even an outsider, unauthorized transactions by employees or third parties, misreporting and non-compliance of various statutory and legal requirements and operational errors.

It may not be always possible to deter employees from the misconduct or the precautions we take to detect and prevent these activities may not be effective in all cases. Any such instances of employee misconduct or fraud, the improper use or disclosure of confidential information, could result in regulatory and legal proceedings and may harm our reputation and also our operations.

The impact of the COVID-19 pandemic or the outbreak of any new pandemic on our business and operations is uncertain and cannot be predicted.

In 2019, the COVID-19 disease, commonly known as “novel coronavirus”, was first reported in Wuhan, China and was declared as a pandemic by World Health Organization on March 11, 2020. Given that we conduct our programmes in person including at colleges of State Governments, an escalation of COVID-19 pandemic and any consequent lockdown measures imposed by the Government could have adverse impacts on our programmes including a delay in implementation. While we have conducted are programmes online in the past during lockdowns on account of the COVID-19 pandemic, such escalation of the COVID-19 or the outbreak of a new pandemic, could require us to expend further resources including to conduct our programmes online and could also cause delays in implementation in the process.

Overview and Vision

We are a not-for-profit organization registered under Section 25 of the Companies Act, 1956 (validly existing under Section 8 of the Companies Act, 2013) and were incorporated on November 16, 2011. Our key objects are aimed at enabling less educated underprivileged, unemployed youth to seek gainful employment. For further information on the objects of our Company, please refer “History and Main Objects” on page 25 of this Draft Prospectus.

Our vision “With Society, towards Serenity” aims to touch different facets of human life to make the society a better place to live in line with our objects. Our vision embodies the following core concepts:

1. Reaching out to all sections of society through education, vocational training, promotion of fine arts and service to the society at large;
2. Enabling people to be happy and to lead a life of fulfilment; and
3. Motivating people who are leading a life of fulfilment to give something back to the society.

Our programmes and their target segment

Our operations comprise three programmes, (a) the Unnati Programme, (b) the UNXT, and (c) the Sugam Programme.

Unnati Programme:

The philosophy of our Unnati Programme is “Learn, earn, stand tall”. Under this programme we provide vocational training and social transformation for the underprivileged and unemployed youth who are typically in the age group of 18 to 25 years. The programme involves amongst other things providing around 300 hours of training focused on spoken English, life-skills, values, basic computer knowledge, and vocational training based on the educational background of the relevant individual. Upon completion of the training, we work towards job placements for such trainees at various corporates. The programme is inclusive and seeks to empower families who are below the poverty line.

We offer two courses of training under the programme, namely, Business Associate and Retail Associate. The Business Associate course is a training course on domestic voice and back-office operations for entry-level jobs. Experienced professional from the field provide training with theory and practical sessions. Placement of trainees under this course are typically with business process outsourcing companies which involve customer care and support, data entry. The Retail Associate course involves training in the field of retail, basic lessons concerning the technicalities of different types of markets, their work and training amongst other things in effective marketing and sales. The job opportunities typically provided are supervisors, help-desk, sales executives, accountants and cashiers at retail outlets. The fees for each of these courses are nominal at ₹ 1,000 per trainee except in Bangalore where the fees is ₹ 5,000 which includes accommodation and food. Additionally, on a case to case basis, we also offer partial or complete concessions on the fees for trainees who are unable to pay the fees on account of their economic conditions. This cost is supported by through the donations and grants we receive.

UNXT Programme:

The UNXT Programme is a one-month programme providing training for final year students at government colleges, who face challenges to secure a job after completing their education. The programme involves training on (a) life skills including money management, stress management and goal setting; (b) communication including comprehension, language etiquette, listening skills and customer queries; (c) human resource training including preparation of resumes, email etiquette, interviews and leadership training; and (d) values including punctuality, sharing, honesty, respect and humility. The cost we incur to train the trainees under the programme is ₹ 2,000 per trainee. However, we offer the programme at no cost which is supported by donations and grants that we receive.

Sugam Programme:

Sugam is a grassroots entrepreneurship accelerator working to bridge the rural-urban economic divide by helping non-urban youth to develop scalable, replicable and locally impactful businesses. Under this programme, an individual aspiring to be an

entrepreneur can conceive, design, launch, grow and sustain a startup venture and be supported to succeed and join the core commercial ecosystem. Our focus is on relevant ideas in sectors like agriculture, healthcare, energy, and supporting youth through learning and development, mentoring, and funding.

Social impact

Strategic intent and planning

The social challenge that our Company is seeking to address is unemployment and unemployability in India. As per World Economic Forum, out of the 13 million people who join India’s workforce each year only 1 out of 4 management professionals, 1 out 5 engineers and 1 out 10 graduates are employable, which is on account of a lack of employability skills. Further, the unemployment rates across states in June 2022, is given below:

Our Company is attending to the challenge of addressing employability skills through our training programmes, namely Unnati, UNXT and Sugam. For further information on our programmes and their target segment please refer “Our Business - Our programmes and their target segment” and “Objects of the Issue - Purpose for which there is a requirement of funds, project details and target segment” on pages 19 and 17, respectively of this Draft Prospectus.

Our Company was founded with a single aim to harness the potential of youth of the country, mold them to become self-reliant, productive workforce for the country, and to provide them with a sustainable livelihood. Our Company helps the youth pursue their goals, equips them with the necessary skill set. We understand that many of them lack the necessary skills and education to secure stable employment. Our programme primarily focuses on training unemployed and unemployable youth, both with and without an educational background.

Target segment

Our target segment is individuals aged 18 to 25 years, who belong to the economically weaker sections of society. Emphasizing inclusivity, we actively encourage girls to participate in our program, and to date, approximately 40% of our enrollees across all centres are girls. By providing equal opportunities, we aim to bridge the gender gap and foster gender equality in the workforce.

The social challenge that our Company is attempting to challenge and the target segment has not changed in the last three financial years.

The outcome

By addressing the above challenges, our Company empowers young individuals to become productive contributors to the society.

Our Company aims to ensure that the impact of our programmes are measured under the following heads (which we expect to be more than 60%):

- Youth securing jobs through campus interviews, job fairs, and if required through us;
- Youth joining their family business, farming or starting their own entrepreneurial journey; and
- Youth going for higher education.

The immediate outcome of the programmes can be measured within 30 days of the completion of our programmes. The impact assessment of our programmes, in terms of the numbers to justify the aforementioned criteria of 60% can be achieved only after completion of 6 months of graduation.

The following could be the potential unintended negative outcome:

- We incur certain cost and time on training youth under our programmes. However, after completion of the programme, the youth may decide not to take up a job due to various factors including social, or geographic reasons.
- We may not have the capacity to train all the interested individuals under our programme due to lack of infrastructure or resources available with us.

The approach

Under our programmes, we trained 23,517; 3,078 and 2,691 youth in the financial years ended March 31, 2023, March 31, 2022 and March 31, 2021 respectively. As a mode of measuring the outcome of our programmes, we contacted 1,812 and 1,523 youth trained in financial years ended March 31, 2022 and March 31, 2021, on a sample basis. Out of which, 544 and 487 students were employed in the financial years ended March 31, 2022, March 31, 2021 respectively, across many sectors, including business process outsourcing, retail, field sales and logistics. The remaining youth went for higher education after completion of the programme. Such details for the financial year ended March 31, 2023 are not available with us as on the date of this Draft Prospectus.

Solution implementation plan

Total 165 hours: 90 hours in classroom learning which consists of values, English communication and life skills over a period of 30 days and 75 hours of self-learning content on a mobile application. The classroom learning is conducted in batches of 35-40 youth, 3 hours per day for 30 sessions, outside of college hours and run throughout the year. We also have 600 videos and 120 questions made available on a daily basis on our learning management platform, which is critical to the programme's success. Self-learning is proposed to be encouraged. There has been no change in the steps taken in the last three years for sustainability of our programmes.

Our operations through three programmes, (a) the Unnati Programme, (b) the UNXT Programme, and (c) the Sugam Programme align with the sustainable development goal of the United Nations to '*ensure inclusive and equitable quality education and promote lifelong learning opportunities for all*'.

Further, our programmes are aligned with the following schemes passed by the Government of India:

- Pradhan Mantri Kaushal Vikas Yojna for Technical Institutions ("**PMKVY-TI**") has been introduced to encourage the institutions for making the best use of available infrastructure of higher education system during off hours for skill training and provide employable and certifiable skills based on national occupational standards with necessary soft skills to the school dropouts who want to pursue higher order skills and living in the college's vicinity.
- Employability Enhancement Training Programme ("**EETP**") provides expertise on life skills, soft skills, communication skills, presentation skills and interview skills. It has been introduced by the All India Council for Technical Education ("**AICTE**") with an aim to boost the employability of engineering graduates through EETP. In partnership with Bharat Sanchar Nigam Limited ("**BSNL**"), this initiative targets electronics & communication students in select engineering colleges.
- The National Employability Enhancement Mission ("**NEEM Scheme**") is pioneered by the Government of India along with AICTE. It offers skill development training to the young people in India, who have either pursuing his or her diploma/graduation/post-graduation in any technical or non-technical stream, or who have discontinued studies after class tenth.

- AICTE – Startup Policy is designed in accordance with ‘Start-up India Action Plan’ introduced by the Government of India to guide and promote student driven innovations & start-ups in more than 10,000 AICTE approved institutions across the country. To help create a larger number of student-driven, on campus start-ups that will add to economic and social value. The policy aims to create one lakh technology-based student start-ups and a million employment opportunities by 2025.
- Skill Assessment Matrix for Vocational Advancement of Youth (“SAMVAY”) is a credit framework that allows for lateral and vertical mobility within the vocational education system and between current education systems and it follows the National Skills Qualification Framework. Upon fulfilling skill module requirements and gaining trainer credits, students can transfer these to the institute. The university or technical board then grants certification by combining vocational skill and formal education credits.

Risk:

A key risk we faced in the achievement of the desired impact under our programmes in the past three years was the COVID-19 pandemic since we conduct our programmes in person including at colleges of State Governments. The lockdowns imposed by the Government had an impact on our programmes and we had to implement online training sessions. We faced numerous challenges during this period as, *firstly*, youth did not have access to high speed internet, *secondly*, youth did not have access to electronic devices such as mobile phones or laptops required to attend the training sessions and, *thirdly*, lack of significant gaps in digital literacy and difficulties in navigating technology.

For further details, please refer “Risk Factors - The impact of the COVID-19 pandemic or the outbreak of any new pandemic on our business and operations is uncertain and cannot be predicted.” on page 8 of this Draft Prospectus.

Our Company monitor our metrics through two methods. Under the first method, we monitor the trend in the number of target segment on a yearly basis and under the second method, our Company monitor the number of jobs secured by youth trained under our programme.

Key challenges

We believe that our skill development and vocational training courses have helped our target segment become employable, benefit from opportunities and attain financial independence. However, there are also numerous challenges that our target segment routinely faces while undertaking our programmes due to several socio-economic and geographic factors. A significant part of our primary target segment have grown up in disadvantaged circumstances, are based in rural areas of the country, and thus frequently come from marginalized backgrounds. The key challenges we face are as follows:

1. Drop outs

Our foremost challenge is ensuring 100% retention of students, and minimizing the number of drop outs per class. Due to the free and voluntary nature of our courses, we have no authority to mandate attendance of participants in our classes. In our experience, approximately 5-10% of class participants drop out before the completion of the programme. At present, we do not have the capacity or resources to either follow up with participants who have dropped out and persuade them to continue or provide counselling to participants and families of the participants who opt to drop out to urge them to let the youth continue attending the programme.

2. Poor connectivity and infrastructure

As we approach government affiliated educational institutes based in rural areas to conduct classes, several of our participants face difficulties in attending classes due to lack of local transport facilities and connectivity. In our experience, we have observed that female students are especially likely to drop out because of circumstances such as buses not being available after a certain time in the evening and lack of other local transport options. Female students are especially hesitant to stay back and attend the programme classes due to this reason, which is a leading cause of dropping out.

3. Familial apprehension and pressure

Apprehension of families of participants with respect to the programme is a major hurdle in persuading participants to enroll and continue with the programme, especially for female participants. Obtaining permission from families to participate in the programme and the related issues that accompany participation, such as, staying back late after regular college classes and concerns with respect to safety due to travelling alone for female students. Additionally, female participants also frequently face pressure for marriage which is an impeding factor in their successful completion of the programme and transition to the job market. Based on our past experience, approximately 5% of our programme’s female participants do not enter the job market and get married directly upon completion of their respective degree.

4. Discrimination, domestic violence, alcohol and substance abuse

Majority of our students have marginalized backgrounds and consequently are susceptible to various vulnerabilities. A significant portion of our students have faced some form of discrimination and/or violence at home or in their immediate environment at some points in their lives. Unfortunately, alcohol and substance abuse, domestic violence including physical, mental and sexual violence are also commonly faced by multiple participants of our programme, which subsequently impact not only their participation in our classes but their overall lives. Although our personnel may be in a position to recognize such harm inflicted upon students, we do not always have the capacity or resources to help students seek medical/legal/psychological help that they may require. This trauma and lack of support may result in students dropping out of either or both the degree they are pursuing and our courses.

For details in relation to achievements, please refer to the section titled “*History and Main Objects - Major events and milestones*” on page 25 of this Draft Prospectus.

Feedback mechanism:

We take feedbacks of the individuals trained by us through our programmes after 6 months of completion of the programme. We have recorded the feedbacks provided by certain youth who have attended under our programmes.

Our programmes contribute towards achieving the twofold objective of building interpersonal skills and soft skills that youth in today's world require to survive in a formal, fast paced work environment. Our interventions which reach our target segment through our numerous programmes help them with building soft skills such as public speaking, time management, stress management, dealing effectively with criticism, goal setting, problem solving, adhering to workplace protocol and others, which are critical for an individual to assimilate in a formal workplace. Through our training programmes, we also aim to impart interpersonal skills such as managing and regulating emotions in social situations, appropriate dressing and hygiene that is necessary to be maintained, conversation making, and teamwork to name a few.

Our Strategy

Provide vocational training for the unemployed, underprivileged youth through our programmes

The target segment of our training programmes is the unemployed and underprivileged youth. Individuals we train under our programmes are typically from rural districts and one of the challenges we face is that they seek jobs in such rural districts in order to be closer to their families and homes. We aim to meet this challenge by connecting with employers including from micro, small and medium enterprises through bodies like the Confederation of Indian Industry and the Federation of Indian Chambers of Commerce and Industry, and providing their job opportunities on our portal, Udyogam. Further, given the background of the trainees, we typically face the challenge of language barriers as trainees are often not fluent in, and in some cases do not know English. Through our programmes we also teach English and our aim is to continuously improve our learning management systems in a manner that help the trainees who are not fluent in English undergo the training with minimal challenges. This will help facilitate employment to the graduating youth from government colleges.

To The Members of M/s. **SGBS UNNATI FOUNDATION**, Bengaluru.

Opinion

We have audited the accompanying financial statements of **M/s. SGBS UNNATI FOUNDATION ("the Company")** having its registered office at **Unnati Centre, No.1 (P), Temple Road NGEF Layout, Sadanandanagar, Bengaluru - 560 038** comprising of Balance Sheet as at **March 31, 2023**, Income and Expenditure Account and statement of cash flows for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, its financial performance and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those SA's are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Financial Statements.

Information other than the financial statements and auditors' report thereon

The Company's management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Director's Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

Based on the work performed by us, we conclude that if there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Key Audit matters:

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Responsibilities of Management and those charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain **reasonable assurance** about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with SAs, we exercise professional **judgment** and maintain **professional skepticism** throughout the audit. We also:

- **Identify and assess the risks of material misstatement** of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- The provisions under section 143(3)(i) of the Companies Act, 2013, relating to **internal financial controls system do not apply to Section 8** companies vide MCA notification no. GSR 583(E) dated on 13.06.2017.
- Evaluate the appropriateness of **accounting policies** used and the reasonableness of **accounting estimates** and related disclosures made by management.
- Conclude on the appropriateness of management's use of the **going concern basis** of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, **structure and content of the financial statements**, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that **achieves fair presentation**.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain **reasonable assurance** about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with SAs, we exercise professional **judgment** and maintain **professional skepticism** throughout the audit. We also:

- **Identify and assess the risks of material misstatement** of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

2 | Page

R. Rai

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit, in order to design audit Procedures that is appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate **internal financial controls system** in place and the operating effectiveness of such controls
- Evaluate the appropriateness of **accounting policies** used and the reasonableness of **accounting estimates** and related disclosures made by management.
- Conclude on the appropriateness of management's use of the **going concern basis** of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, **structure and content of the financial statements**, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that **achieves fair presentation**.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work, and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
